

Nsonera Hirwa Dylan

Software Engineering Student | IT Infrastructure & Technical Support

hirwadylan12@gmail.com | +250 787 822 53 | Kigali, Rwanda [linkedin.com/in/nhdylan](https://www.linkedin.com/in/nhdylan) | github.com/hdylan12

PROFESSIONAL SUMMARY

Final year Software Engineering student with practical experience in system administration, enterprise IT infrastructure and software development. Skilled in Windows Server environments, network configuration and full-stack application development. Proficient in JavaScript, Java, Python, Flutter and Spring Boot, with exposure to DevOps, cloud engineering and cybersecurity.

WORK EXPERIENCE

Rwanda Information Society Authority (RISA)

Nov 2021 – Jan 2023

Digital Ambassador | Kigali, Rwanda

- Trained citizens on e-Government services, digital literacy and online platforms through workshops and outreach programs.
- Promoted digital literacy and technology adoption across communities, training citizens on e-Government services and online platforms.
- Represented RISA at national events and forums; provided technical support for digital transformation initiatives.

National Bank of Rwanda (BNR)

May 2025 – Oct 2025

MIS & Network Operations Intern | Kigali, Rwanda

- Configured and managed Windows Server environments including AD DS, DNS, DHCP, WDS, VLANs and Microsoft Exchange.
- Collaborated with System Administrators on server virtualisation, domain controller setup and enterprise infrastructure management.
- Monitored core banking applications using Grafana and Splunk; gained exposure to payment systems integration and operational automation.
- Participated in DevOps, Cybersecurity and Cloud Engineering sessions and visited the Data Centre to observe enterprise system operations.

EDUCATION

Adventist University of Central Africa (AUCA)

2022 – 2026

B.Sc. Software Engineering | Kigali, Rwanda

Projects

Full-stack HR Management System: React.js, Express.js, Node.js, PostgreSQL and Docker

Full-stack Inventory Management System: Developed a Java/Spring Boot inventory system with PostgreSQL.

Flutter Geo-Fencing App: Implemented geo-fencing and location-based input handling.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript, SQL, PostgreSQL, Spring Boot, Flutter, React Native
Sysadmin	Windows Server, Linux, Active Directory (AD DS, DNS, DHCP, Exchange), Virtualisation
Monitoring	Grafana, Splunk, OpenText Server Automation
DevOps & Cloud	Kubernetes, Docker, CI/CD concepts
AI / ML	PyTorch, TensorFlow, Scikit-learn, Pandas

CERTIFICATIONS

ALX Africa – AI Career Essentials (2024) | Internet Society – Network Operations (2025) | ICDL Africa – Computer Essentials & Spreadsheets (2016)

LANGUAGES

Kinyarwanda (Native) English (Fluent) French (Fluent)
